LITE GEAR™

Traveling isn't always the easiest thing to do, nor is packing for your trip. I have a hard time packing light, and making everything fit neatly in my bags.

LiteGear Bags to the rescue.

Products from LiteGear can make a big difference, by providing innovative products that make packing and traveling easier.

I received these awesome packing aids, that have made getting ready for a trip – a breeze!

Kompressor Kubes – Come in 2 sizes

- Ultra-lightweight
- See-through mesh is security and custom friendly
- Compress your kube items and reduce space needs by nearly half
- Beat the checked bag fees and carry on

These zippered bags weigh just 3.2 oz (small) and 5 oz. (large). They open up to 10.5" x 6.5" x 5" and 13.5" x 8.5" x 5", respectively. Roll clothes or fold flat, and place inside bags. There is even an outside zippered pocket on each. The open weave "mesh" makes them breathable, so clothes stay *fresher smelling*. They also work great for storing jewelry, belts, scarves and all those cords/charges for your tech gadgets. No more worrying about losing those smaller items in the bottom of your suitcase.

Besides packing and travel accessories, such as garment bags, hanging toiletry kits and money belts, LiteGear Bags carries luggage and backpacks – BUT – the coolest thing ever is this little number...the Aero-Tray!

A portable, ergonomic work area for laptops, mobile devices, books, or magazines. Invented by Norman Korpi, of The Real World, for travelers everywhere.

- Hardside/ABS Plastic
- Aero-Tray is Lightweight at 1.5 pounds
- Compact: 9.5 x 14 x 1.5
- Fits into a standard carrying case, messenger bag, brief case, etc.

I can't even begin to mention how often this would have come in handy during my travels!

Prepare ahead of time, and pack light for your holiday trips – or any time of year, with the help of LiteGear Bags.
