Gearing Up

TO HAVE AND TO FOLD.

The new Trifold Garment Sleeve from Lite Gear adds some oomph to the usual hanging-clothes bag. The bag not only secures and zips in suits, dresses or other hangables to keep them wrinkle-free en route, it also supplies three spacious but featherweight pockets — two of them see-through mesh — for organizing shoes, undergarments or other essentials, then tri-folds into a rectangle just the right size to fit in any wheel-

aboard bag. The Trifold has two snap buckles for secure closure as well as a built-in carry handle. Open, the black polyester bag measures 37

inches by 19.5 inches. It weighs barely 1 pound.

Lite Gear Trifold Garment Sleeve is about \$40.
